BALLOTS AND BULLETS.

ARGENTINE ELECTIONS RESULT IN BLOODSHED.

Fierce Fighting Between the Radicals and the Police—Tangled Affairs of a Mortgage Company—C. P. Huntington Talks on Railway Matters.

BUENOS AYRES, Feb. 9.—After the election in the evening the Union Civica club held a stormy meeting in Calle Angelo Santa Lucia parish. The members became so excited over the disappointing results of the voting that they ran to the windows of the club house and upon the roof and opened a brisk fire upon a body of police patroling the street in front of the building. The police fired back, and with much better aim. Eight members of the club were killed and 30 wounded severely. Some of the injured are reported dying. As soon as they had discharged their firearms, the police dispersed the mob that had surrounded the club house and laid siege to the building, taking prisoners the 60 rioters gathered there. This state of affairs lasted until 2 o'clock this morning, when at the urgent request of President Pellegrini and Dr. Irigoyen the police withdrew. Another account states that an armed mob of Radicals marched up and down the street in Santa Lucia parish last night, making threats that they would attack the police. The city is now comparatively quiet again. The party supporting Generals Roca and Mitre has fourteen hundred majority over the Radicals of this province. The latter, however, claim that their defeat is the result of corrupt work at the polls at Santa Lucia. In Piedad parish the police were also attacked by the radicals, but repulsed them. Several persons were wounded. A riot likewise occurred at Rosario, but was quietly suppressed. In the province of Buenos Ayres, the coalition party gained an almost unanimous vote. At a late hour it is claimed the elections will be declared invalid on account of frauds. There is further excitement because of the proposition of the Radicals to hold meetings to discuss the election frauds not only in this city but in all the Argentine provinces.

Advices just received from Montevido report revolt of the troops. Details are meagre.

The Farm Mortgage Trust Company.

DENVER, Col., Feb. 9.—The Western Farm Mortgage Trust Company is getting beautifully complicated. Yesterday H. F. Granger, through his counsel, Caypless and Fisher and Judge Bedford, brought suit against Receiver Griffith, making divers charges against him and petitioning the court for an injunction to relieve and appoint another. Griffiths is accused of conspiring with the wreckers of the company to swindle the friends of the company. The complaint is a very lengthy document and will be filed this evening or to-morrow. At the office of the company things were very lively. Several attempts were made yesterday to remove moneys from the drawers of the office desks. Finally Receiver Griffiths walked up to the money drawer and coolly filled his pockets with specie and started out of the office but was prevented from taking money by a deputy sheriff who had been put in possession of the office.

A Cartridge Explodes in School.

LOUISVILLE, Ky., Feb. 9.—Sidney Barton, aged 15, student in Annie Day's room at the Main street school in New Albany, procured a small dynamite cartridge from a companion yesterday morning and taking it to the school room began throwing it to a number of scholars. He was standing near the stove, and without warning, the cartridge exploded in his hands, knocking him and the others in his immediate vicinity to the floor. Barton was seriously injured, the flesh on his hands being peeled off the bone. He was carried to the office of Dr. Easty by Prof. McClure, where his wounds were dressed. Wallace Mann, Artaur Barth and Stephen Alexander were also injured, but not seriously. Most of the pupils were on the play grounds at the time of the explosion, which accounts for the small number injured.

C. P. Huntington Speaks.

NEW YORK, Feb. 9.—The attention of Mr. C. P. Huntington, president of the Southern Pacific Railway was called yesterday to a rumor that his company had withdrawn from the Western Traffic Association, so far as commission payments were concerned. He said: "There is no truth in the report that the Southern Pacific is going out of the Western Traffic Association. We think the Association is doing much good. I am not very familiar with all the details of the work done by the Association, but, as I understand it, that body does not pretend to control business east of Chicago. I think our people are living up to the very letter of the arrangements made by the Association."

The New York Holocaust.

NEW YORK, Feb. 9.—By nine o'clock this morning the bodies of two men and two women were taken out of the ruins of the Hotel Royal, making a total of sixteen recovered. The bodies are unrecognizable. Many more are expected to be found to-day, as the stench in certain parts is awful.

About 2 o'clock the workmen unearthed another body, making the fifth found since daybreak. Only some bones show through the debris, the rest of the body being covered with heavy timbers.

Pensions for Confederate Soldiers.

JACKSON, Miss., Feb. 9—The house yesterday passed a bill appropriating $64,200 a year for pensions. This will give those now on the rolls $50 each. The present appropriation is only $30,000. The bill provides that all indigent confederate soldiers, sailors, servants, and indigent widows of such shall be entitled to $50 a month, unless the number at this rate exceed the appropriation, in which event the amount shall be pro-rated. It is estimated the indigent clause will put at least 5000 on the pay rolls within a few years compared with the 128 now on. If it turns out so, the amount that each will receive will be only about $12. The bill also provides that the pension commissioner shall be the auditor.

NEARING THE END.

Neal Dow, of Maine, the Eminent Temperance Reformer.

Neal Dow, who was born in 1804 at Portland, Me., shows so decidedly his great age that news of his decease at an early date would not be surprising. He lives in the city where he was born.

His parents being Quakers he was educated in that faith. In 1839 he was chief engineer of the Portland Fire Department. Twice, in 1851 and 1854, he was Mayor of his native city. The Maine Liquor Law, which was passed in 1851, was drawn by him, and his name is known chiefly as that of its author and the staunch defender of prohibition principles. In 1858 and 1859 Mr. Dow was a member of the Maine legislature. He was in the Union army from December, 1861, to November, 1864. In 1857, 1866 and 1874 he made oratorical temperance progresses in England. He "ran" for the presidency in 1880, and received more than 10,000 votes. The chief principles of the Maine liquor law were incorporated in an amendment to the Constitution of the State, accepted by a vote of three to one, in 1884.

Edward Field's Firm.

NEW YORK, Feb. 9.—Charles W. Gould, the assignee of Field, Lindley & Co., filed schedules to-day in the Court of Common Pleas. The liabilities of the firm are: Secured, $1,078,895, unsecured, $1,077,849; nominal assets, $1,917,706; actual assets, $39,326. Mr. Gould states that it is impossible to determine positively the status of the firm's affairs with the persons and corporations mentioned in this schedule. A final settlement, he says, can be obtained only after investigation and some litigation. Values on many of the claims would be a matter of speculation merely. He thinks a considerable sum may be realized from a number of claims.

The Steamer Humboldt Safe.

SAN FRANCISCO, Feb. 8.—The steamer Humboldt, from Eureka, Cal., which has been missing for three days, arrived here yesterday afternoon. The captain reported the Eureka bar very rough when leaving, and in crossing it a heavy sea was shipped, which carried away the rudder and flooded the saloon and engine room. The captain feared to recross the bar, and instead rigged a temporary rudder of spars and started south. The Humboldt came very slowly and arrived off the heads early this morning, where she was met by the tug Wizard and towed in. All on board were safe. Much relief is felt here, as grave fears had been entertained for the vessel's safety.

The "Higher Law" in Free America.

LITTLE ROCK, Ark., Feb. 9.—A bloody tragedy is reported from Toller, a small station ten miles east of this city. The constable at that place went to the home of a negro with a warrant for his arrest. He ordered the man out of the house. This was refused and the officer then attempted to enter by force. Five negroes were in the house and on discovering the officer's plans rushed out of the door, firing on him with pistols. The officer, armed with a double-barreled shotgun, returned the fire, killing four of the crowd. Great excitement is reported and further trouble is apprehended.

Killed by a Boiler Explosion.

PHILADELPHIA, Feb. 9.—Late last night between Wayne Junction and Nicetow on the Bound Brook track, a Philadelphia and Reading railway engine pushing freight up a steep grade exploded with terrific force, killing three men instantly and injuring four others, two fatally.

President Bartlett Resigns.

HANOVER, N.H., Feb. 9.—President S. C. Bartlett of Dartmouth College sent his resignation to the board of trustees yesterday to take effect at the next commencement day. This action on President Bartlett's part is due to a long cherished desire to devote himself to special literary work.

Death of Stephen D. Pool.

NEW ORLEANS, La., Feb. 9.—Stephen D. Pool, night editor of the Times-Democrat and one of the stockholders of that paper, died last evening of congestion of the lungs. He caught cold while attending the southern press convention at Atlanta, Ga.

A Jockey in Luck.

NEW YORK, Feb. 9.—Jockey Martin Bergen signed a contract yesterday to ride for Col. Ruppert, jr., during the coming season at an exceedingly handsome figure.

Death of John Jay Knox.

NEW YORK, Feb. 9.—Hon. John Jay Knox, president of the National Bank of the Republic and ex-comptroller of the currency, died to-day.

BRITISH PARLIAMENT.

PROGRAMME OFFERED BY THE GOVERNMENT.

Nothing Said on the Subject of Dissolution—Belgians and Germans Buying Slaves in Africa—General Booth in Rome—General Cable News.

LONDON, Feb. 9.—Parliament opened to-day. The Lord Chancellor read the Queen's speech. It begins by regretting the death of the Duke of Clarence and thanking the people for their sympathy. It goes on as follows: "The relations with other powers continue friendly. The country has lost in the viceroy of Egypt a loyal ally, who largely contributed to restore peace and prosperity to his country. An agreement has been concluded with the United States defining the mode in which the disputes relating to the seal fisheries in Behring sea shall be referred to arbitration. Zanzibar has been established as a free port by the Sultan, with my concurrence. Proposals will be laid before you for applying to Ireland the principles affecting local government already adopted in Great Britain. You will be asked to consider a bill for extending the advantages of assisted education to Ireland and for other purposes connected with elementary education in that country, etc.

General Booth in Rome.

ROME, Feb. 8.—General Booth, commandant-in-chief of the Salvation Army, arrived at Brindisi from India on Friday and in Rome on Saturday evening. He delivered two addresses to-day to the English speaking residents of the Eternal City, explaining and championing his scheme of social redemption and outlining a plan for the advancement of the work of the work of the Salvation Army among the Indian people. The general is in robust health and it is quite apparent that he does not make the mistake of many reformers in allowing his zeal to wear upon his nervous system. He takes healthy and practical views of things and does not expect to revolutionize the world in a day. He sees more accomplished in his work of rescuing the submerged truth than is visible to most other people, but that is, of course, explicable from the fact that he is more familiar with the situation than outsiders and possible skeptics. The General hopes to be granted an interview with the Pope before leaving the Holy City. Should he succeed in this effort there will be many curious to learn what passes between the respective heads of the most ancient and the most modern of Christian organizations.

For Stealing Trust Funds.

LONDON, Feb. 8.—In the Old Bailey to-day, the judge directed the Grand Jury to find a true bill against George Woodyat Hastings, M.P., for stealing trust funds. The evidence shows that Hastings had embezzled £50,000 from the estate of Major John Brown, of which he was the only surviving trustee. Other allegations of breach of trust are brought against the prisoner.

Slaves in Africa.

PARIS, Feb. 9.—Le Temps has advices from Dahomey confirming the report that the king has been making slave raids in order to supply the Belgians on the Congo, and the Germans in the Cameroons with slaves. It is said a German named Richleu, settled at Whydah, has engaged the king to supply 4000 negroes at £12 each.

The Elder's Mails.

LONDON, Feb. 8.—A letter to the Times, over G. W. Smalley's signature, complains that the English postoffice authorities made no attempt to forward the Elder's mail until the North German Lloyd officers started hints to the effect that the same indifference was shown to all American mails arriving at Southampton.

A Fight in Senegal.

PARIS, Feb. 9.—The French expedition in Senegal, in two battles with Chief Samery lost one officer and nine men killed and 43 wounded. The enemy lost 50 killed and 300 wounded.

STOCKHOLM, Feb. 9.—The Chamber of Commerce of this city has declared that all Germany is afflicted with the rinderpest.

LONDON, Feb. 8.—David Boyle, Earl of Glasgow, has been appointed Governor of New Zealand in the place of the Earl of Onslow, resigned.

VIENNA, Feb. 8.—Eighteen people were burned alive to-day in one carriage of a Roumanian express train, which caught fire.

PARIS, Feb. 8.—Whitelaw Reid, the American Minister, who was apparently recovering from an attack of influenza, has had a relapse. No tears as to his condition seem to be entertained.

The Death Record.

OTTAWA, Feb. 9.—James McLaren, the Buckingham millionaire lumberman, died last night.

QUEBEC, Feb. 9.—Monseigneur Methot, domestic chaplain to the Pope, and formerly rector of Laval University is dead.

LONDON, Ont., Feb. 9.—Dr. J. M. Smith, coroner, died yesterday. Paralysis of the brain was the cause.

A Crank in Love with Miss Blaine.

WASHINGTON, Feb. 8.—During the past few days Miss Hattie Blaine has been receiving a series of letters couched in fervent language and signed by one Markle, who expressed an urgent desire to marry her. The climax was reached yesterday when Mr. Blaine received a letter from the importunate suitor, asking that he might meet the secretary in his library and receive an introduction to his daughter. On investigation it was found that Markle was a clerk in the war department, of previous good reputation. It is believed he is insane and he will be brought before the lunacy commission to be examined in regard to his sanity.

BURNED IN THEIR HOME.

A Woman and Two Children Lose Their Lives at Mattawa.

OTTAWA, Feb. 9.—A destructive fire has occured at Mattawa. Mrs. Rothschild and her two children, a girl aged six and a baby of sixteen months, were burned to death. The loss of property is $18,000. This is the first fire in the village which resulted in the loss of life.

VANCOUVER NOTES.

Burglary—Alderman Scoular Resigns—The Printing Contract.

VANCOUVER, Feb. 9.—Calderwood & Jenkins' store was burglarized last night. An entrance was made over the transom and some goods were stolen.

Ald. Scoular resigned his seat in the council rather than stand a law suit. He will run again.

The Vancouver Belle, sealer, leaves to-morrow for a four months' trip north. The steamer Ionia left to-day on a halibut fishing trip.

Louis Mohr was committed in the police court on four counts of larceny.

A free reading room is to be established at Mount Pleasant.

A petition was presented last night to the council asking for a public meeting to discuss the printing contract.

THE LIZZIE BELL IN DISTRESS.

Catches Fire on Her Way From London for Victoria.

VALPARAISO, Feb. 9.—Capt. Sledge, of the British bark, Vale of Nith, which has just arrived here, reports that on Feb. 3rd he sighted the bark Lizzie Bell, Capt. Edwards, ninety miles northeast of this port, flying signals of distress. The Bell was bound for Victoria, B. C. with a cargo of powder and war material for the British Government. She had been on fire under the cabin since December 19th. The clothing of the crew had been burned and chronometers destroyed. Captain Edwards was stricken with paralysis, the mate was ill and the second mate was in charge of the vessel. The vessel is now making for Coquimbo to discharge on the British store ship Liffy.

The Lizzie Bell is an iron ship 1036 tons. She left Liverpool on the 28th of September and is therefore 134 days out.

FIREBUGS AT WORK.

San Diego Hotels and Lodging Houses Fired by Incendiaries.

SAN DIEGO, Cal., Feb. 9.—That dangerous firebugs are at work in this city is evident beyond doubt. After midnight on Sunday the St. James Hotel was found pouring forth great volumes of smoke. The department was promptly on hand and prevented the destruction of the building. The origin of the fire was said to be spontaneous combustion. Shortly after 12 o'clock last night the handsome block known as the Leland was discovered to be on fire and wild excitement prevailed, as the upper story was occupied by lodgers and fire in the hallway cut off the only means of escape. Several inmates were on the point of leaping from the high windows, but were prevailed upon to stay where they were. One man jumped from a window in rear of the building and miraculously escaped injury. The fire department did excellent work, and soon had the fire under control. After the flames were subdued a gasoline can was found on the floor of the hall near a large roll of cotton batting, which had evidently been saturated with the inflammable material. The engines had scarcely reached their houses when another alarm was turned in. This time another lodging house on Sixth and K. streets was on fire. It originated in a small room used as a store room. This fire must have been incendiary, as the storeroom contained nothing to create sponstueous combustion and the house was ucoccupied. The losses by fire have been small, with much greater damage by water. The fire bug seems to have a penchant for lodging houses, and the officers are of the opinion that the work is done for the purpose of robbery.

Experiments With Terrorite.

SAN FRANCISCO, Feb. 9.—Some further experiments were conducted at Fort Winfield Scott yesterday with a new explosive, terrorite, under the direction of Major General Rogers and Lieut. Hamilton, ordance officer. Three shots were fired with 25-pound shells loaded with five pounds of terrorite, to which a six-second time fuse was attached. Three shots were fired from a 10-ton rifled Parrott gun, with a charge of five pounds of powder. In each case the shot struck the red rock bluff on the Marin county shore and the shell exploded and brought down tons of earth and rock. The result of this experiment showing that there was no danger of an explosion from concussion, the experiment was repeated with a 10-pound charge of powder, with which five more shots were fired with similar shells, the result being the same with the higher charge, except that one shell was buried in the bluff and failed to explode, presumably owing to a defective fuse. Major General Rogers and Lieutenant Hamilton expressed themselves as thoroughly satisfied with the experiments. Their report will be forwarded to Washington City to supplement the report of similar experiments made at Fort Hamilton, N. Y.

Blaine's Third Assistant.

WASHINGTON, Feb. 9.—The President to-day sent the following nomination to the Senate:—Wm. M. Grinnell, of New York, to be third assistant Secretary of State vice John O. Moore, resigned.

Mr. Samuel Wilmot, Commissioner of Fisheries, and Henry Ross passed through Winnipeg yesterday, en route to the Pacific coast.

Motions will be made in the supreme court to quash the appeals in the North Perth, West Northumberland and Prescott election trials.

The feud among the officers of the Royal Grenadiers of Toronto has become thoroughly public, and will probably end in the retirement of one of the factions.

Toronto City Council refused to appoint Mr. Cunningham city engineer until the charges of incompetency made by one of the aldermen were investigated.

Mrs. Schreiber, wife of the General Manager of the Intercolonial, died yesterday afternoon. The deceased lady was a daughter of Col. McLean of the 41st foot.

Application will be made at once for a charter of incorporation for the Theatre Royal of Hamilton. The capital stock will be $100,000 in $100 shares. The theatre is to seat 1800 persons.

The Dominion Shorthorn Association held a meeting in Toronto at which preliminary arrangements were discussed for making a representative shorthorn exhibit at the Chicago World's Fair.

The Great Northwestern and Manitoba & Northwestern—two Manitoba railways—are fighting over the location of their respective lines, and have appealed to the Government for a settlement of the dispute.

The Conservative managers in South Grey first appealed against the decision of the election court confirming Dr. Landerkin, M. P., in his seat, and then thought better of it, as they failed to become responsible for the fees.

The Globe says if Sir John Thompson will grant a Parliamentary committee to investigate "Section B," it will be shown that the Tory methods of running elections in Ontario differ in no way or degree from the methods adopted in Quebec.

Dr. Drennan, ex-Mayor of Kingston, has been chosen as the Conservative candidate for Mr. Metcalfe's vacant seat in the Legislature. Rev. Principal Grant has publicly endorsed the candidature of Mr. William Harty, the Liberal nominee.

A deputation representing the brewers waited on Premier Abbott on Saturday, with regard to the excise duty on malt. At the last session Parliament increased the duty to 1 cent per pound. They urged that the duty be abolished or materially reduced.

Edward Taylor Dartnell died at Kingston. He was an old newspaper man, being at one time proprietor of the Limerick Standard, and also a writer on the London Times. Subsequently he was manager of the Provincial Insurance Company of Toronto.

The time for the meeting of the Ontario Teachers' Association has been changed this year from midsummer to Easter. The programme includes a public address from the Hon. Edward Blake, and an address on university extension from Mr. W. Houston, M.A.

Work on the Glencoe line of the G. T. R. will be pushed with the opening of spring, and the road will be hurried to completion. It will prove a valuable addition to the G.T.R. systems. The line will leave the Sarnia branch at Kingscourt and go through the Alvinston district.

In the exchequer court at Ottawa, Henry Bulmer, jr., of Montreal, entered suit against the Queen for $200,000 in respect to certain timber limits in what was formerly known as the disputed territory on the Manitoba boundary. Thirteen cases from British Columbia and two from Nova Scotia were also entered.

Rev. Father John Quinlinan, S.S., has been appointed successor to the late Father Dowd, parish priest of St. Patrick's, Montreal. Father Quinlinan was born in Ireland, but came at an early age to Stratford, Ont., where he received his primary education. He subsequently moved to Montreal, where he studied classics and theology, and was ordained. He is 46 years of age.

The Mail's Montreal correspondent says: "The alleged revelations made by the Toronto Liberal organ in correspondence purporting to emanate from Montreal, and charging Sir Adolphe Caron and J. Israel Tarte with having systematically received money from Thomas McGreevy for political purposes have not occasioned any surprise, for the simple reason that everybody knew it long before the Liberal organ appears to have discovered it."

A Montreal dispatch of Feb. 4th says: At one o'clock this morning Augustus Moore, night watchman employed by Samuel G. Curtin, shot and fatally injured Ignace Bastien, express driver, an employee of the same firm. At that hour Basden dropped into the yard after completeing his day's work and evidently got into a dispute with Moore. A scuffle ensued during which Moore drew a revolver and shot Bastien in the side about an inch above the heart. Moore was arrested and Bastien was taken to the hospital.

Thomas Simms, alias Pascoe, alias Harris, was arrested at St. Thomas the other day, charged with forgery at Tonawanda, N.Y., of a certificate in proof of an accident having happened to him under which he set up a claim against the Employers' Liability corporation. He was remanded for a week, when he will be examined for extradition. It is said he has been in the habit of buying tickets, making hypodermic injections of croton oil into his joints and getting certificates from physicians that he had been treated for injury by sprains.

A big county Orange meeting at Bell's Corners, Carleton county, passed unanimously two resolutions for the benefit of Hodgins, M.P. The first resolution, moved by F. H. Lewis and seconded by James Clarke, pledged the meeting to oppose any Government or party which countenanced "better terms" to Quebec, in other words, an increase of the federal subsidy. The second resolution denounced payment by the Dominion Government of costs incurred by the Manitoba Catholics in their legal proceedings against the Manitoba act abolishing separate schools, inasmuch as the Government refused to pay the costs of the Protestant appeal against the Jesuit act. Both resolutions were carried unanimously, and it is understood that Hodgins, M.P., who was present, gave his adhesion to it.

Severe Sentence Condemned.

BERLIN, Feb. 7.—It is believed that the sentence passed on Count Limberg Stirum, of dismissal from the public service and loss of his pension, and to be deprived of his diplomatic title of ambassador for publishing an article in the Kreus Zeitung against the commercial treaties, will arouse the Conservatives against the government. The public generally condemns the sentence as extremely severe, and while there is no direct criticism of the kaiser, there is a general feeling and indirect expression that it is the result of his interference, and of a desire on his part to intimidate all who have held office under the government and who are disposed to antagonize the imperial policy.

The Unpopular Play Sustained.

PARIS, Feb. 7.—The soldiers were called in Saturday night to clear the theatre at Montpelier, where the audience refused to permit an unpopular play to begin, hissing and groaning as soon as the curtain was raised. The military made 20 arrests and suppressed the disturbance.

MR. SPURGEON'S FUNERAL.

The Body Taken to the Tabernacle---Pulpit References.

LONDON, Feb. 8.—The body of Rev. Mr. Spurgeon arrived at New Haven from Mentone this morning. Notwithstanding the earliness of the hour there was a large assemblage on the quay awaiting the arrival of the steamer which brought the body from France. The coffin, which was taken ashore soon after the steamer arrived, was enclosed in a wooden case. Before it was taken to the train that was to carry it to London this case was taken off and broken into small pieces, which the crowd eagerly seized upon and carried off as relics. Arriving at London the remains were conveyed to the tabernacle, accompanied by an immense crowd.

There were references made in all the churches Sunday to the late Dr. Spurgeon. The Bishop of Bedford, at St. Paul's Cathedral this morning, and Archdeacon Sinclair, in the same place in the afternoon, delivered eloquent tributes to the great dissenter. The latter said in the course of his remarks:

"We cannot hear untouched the news that our country has lost its greatest living preacher."

Archdeacon Farrar, at St. Margaret's and Canon Troutbeck, in Westminster Abbey, spoke in terms of praise at the feet of the dead.

At many of the churches the services were concluded with the dead march.

Dr. Pearson conducted both of the services held in the tabernacle. The vast auditorium was thronged. All present were clad in mourning, and everywhere was heard the sound of sobs.

The proposition of many dissenting churches to send wreaths of flowers to be placed on Spurgeon's coffin while the body lies in the tabernacle has been discouraged by some of the closest friends of the late preacher, who recall the fact that Spurgeon did not look favorably upon this custom. The objectors suggest that the money which would be required for the floral tributes be donated to the orphanage, an institution very dear to Dr. Spurgeon, and it is understood that this course will in most cases be taken.

Spurgeon's father, who is 82 years old, wishes very much to attend the funeral, but his relatives are urging him not to do so, fearing the effect of the weather and the excitement on his health, which is feeble.

T. P. O'Connor Hopeful.

LONDON, Feb. 7:—In to-day's Sunday Sun T. P. O'Connor says: The stillness of the Irish political atmosphere just at present indicates, we have reason to believe, the coming re-union of the factions.

The Irish are a little tired and also a little ashamed of continuing a struggle, the cause for which no longer exists. It must be admitted that there is much bitter animosity, but a change in the situation is apparent. The more rational members of the minority have altered the tone of their speeches and no longer indulge in insults and calumnies. There is a suspicion that this is due to pressure brought on the mouthpieces of the faction by their own supporters. Whether there is to be permanent peace or not it is too early to state with confidence, but there is at present something in the nature of a truce, and we are rejoiced to believe the era of bitter personal recriminations is past." Referring to the recent caucus meeting of the McCarthyites, Mr. O'Connor says: "We never saw a gathering more serious, more under control. The speeches were listened to with unbroken attention, and debatable questions were talked over without unreasonable criticism. We asked several members the reason for their unanimity, and received from all the same answer in substance, namely, that it was the effect of the terrible lesson taught by the occurrences in the committee rooms."

Queer world! Queer people Here are men and women by thousands suffering from all sorts of diseases, bearing all manners of pain, spending their all on physicians and "getting no better, but rather worse," when right at hand there's a remedy which says it can help them because it's helped thousands like them. "Another patent advertisement," you say. Yes—but not of the ordinary sort. The medicine is Dr. Pierce's Golden Medical Discovery, and it's different from the ordinary nostrums in this:—

It does what it claims to do, *or it costs you nothing!*

The way is this: You pay your druggist $1 for a bottle. You read the directions and you follow them. You get better, or you don't. If you do, you buy another bottle, and perhaps another. If you don't get better, you get your money back. And the queer thing is that so many people are willing to be sick when the remedy's so near at hand. tu-th&w

Fatal Train Wreck.

KANSAS CITY, Mo., Feb. 7.—A disastrous and fatal wreck occurred on the Chicago & Alton railway this morning. As a result three men were killed and a considerable amount of property destroyed. The limited passenger train from Chicago for Kansas City left Centralia at 6 o'clock, behind time. Before reaching Larrabee, five miles west, the train attained a speed of 45 miles an hour. At Larrabee the switch of a siding had been left open and the train dashed through it and into a stock train standing on the siding. The two engines came together with such force that they were wedged together. The mail and baggage cars were derailed, but not wrecked. The two stock cars loaded with cattle were demolished and many cattle were killed. The fireman and engineer of the stock train were instantly killed, and the fireman of the passenger train so severely injured that he died within an hour. The baggageman of the passenger train had an arm broken and the engineer of the passenger train sustained a dislocation of the left knee. No passenger received so much as a scratch. The killed are Ollre Wooliston, of Rood House, Ills., engineer of the freight; Thomas Hindman, of Rood House, fireman of the freight; John W. Keelher, Kansas City, fireman of the passenger. The injured are Charles Adelaman, engineer of the passenger train, leg broken; John O'Day, baggageman, arm broken.

Fire on a Steamship.

LONDON, Feb. 7. — The steamship Wyoming, which sailed from New York January 26 and arrived in Liverpool Saturday, had a slight fire on board during the passage. The fire was observed coming from the main hatchway. The captain at once ordered an investigation and the fire was found in the bunkers. It had not developed to an alarming degree, and by removing part of the cargo the danger of the fire spreading was prevented, and the day after the discovery it was completely extinguished. The chief and almost only damage was to the room containing the meat. The cause of the fire is a mystery. It was thought by some to be caused by spontaneous combustion, but the general opinion expressed on board was that some inflammatory material had been dropped in the bunkers. Had the fire continued to gain headway for a few hours more it would have seriously endangered the vessel. The passengers behaved with coolness and accepted the assurance of Captain Rigby that the steamer was safe.

What a Vile Condition!

Your experience is not a pleasant one at present. Every morning you have furred tongue, bad taste in your mouth, and a miserable feeling generally. You certainly need the help of that life-renewer, Paine's Celery Compound.

This Can Be Your Experience!

"For over five years nervousness and sleeplessness made my life miserable, and doctors could not cure me. I was advised to use Paine's Celery Compound, and now, thank God, I am a different man. I am happy, healthy and robust." This is the experience of thousands of others in Canada.

Found the Pearl of Great Price!

A prominent citizen of London, Ont., says: "For two years I persisted in using several advertised remedies for rheumatism, but never obtained relief until I used Paine's Celery Compound; God bless the great discoverer."

THAT INVESTIGATION.

The Premier's remarks in the Legislature yesterday will strengthen the suspicion that he is not quite so desirous of having a "fair, full and free" investigation of Mr. McLeod's case as he professed to be. On no account is the committee to be allowed to inquire into the methods pursued by the Education Department in regard to the promotion of pupils in the Victoria schools, though this matter is so closely connected with the cancellation of Mr. McLeod's certificate that none but an Honest John would dream of separating the two. Looking back a little, the course of the controversy makes this fact so plain that no man possessed of common sense can fail to see it. The document served on Mr. McLeod by direction of the Council of Public Instruction advanced charges against him as follows:

The Council further finds that Mr. McLeod has been guilty of gross insubordination and unprofessional conduct in the following particulars:

(1.) In making unfounded representations in regard to school matters and management to the Board of School Trustees.

(2.) In misrepresenting the Education Department in the public press, and

(3.) In refusing to answer questions put to him before the Council, or to there produce information which he alleged is in his possession, which would prove the charges he had made, or to otherwise substantiate such charges.

In view of the circumstances of the case, the Council of Public Instruction recommends that Mr. McLeod be called upon to furnish a full and complete retraction of the unfounded statements herein alluded to, within one week from the time of a copy of this report being delivered to him.

Now be it remembered that by the "unfounded representations" in charge No. 1 are meant certain statements made by Mr. McLeod in his letter of July 27 last and others made by him later in the year before the Board of Trustees. These statements were to the effect that the High School was not properly graded and the promotions not properly made under the methods pursued by the Department. This charge was part of the ground advanced for the cancellation of Mr. McLeod's certificate, yet Honest John says the committee must not investigate it!

Again, Mr. Robson says the committee must not have the Latin papers placed before it, though the Council made these papers the basis of charge No. 3 against Mr. McLeod. We are content to leave it to rational men to decide whether the committee can enquire into the cancellation of Mr. McLeod's certificate with any degree of fairness and freedom and yet leave these two charges untouched. The limitations which the Premier imposes restricts the investigation to the second charge, on which, it may be remarked, the Council did not examine Mr. McLeod at all.

THE NEW QUEBEC GOVERNMENT.

It seems that the present Quebec Government and its friends are very desirous of getting rid of Hon. L. P. Pelletier, the Provincial Secretary, whose past record makes him a dead weight to carry. From incidental revelations in connection with the work of the Royal Commission, it has been shown that Pelletier is quite as crooked as Mercier, and that his desertion of the latter was caused, not by disgust with the boodle operations but by Mercier's failure to take him into the Cabinet. He is charged with receiving money wrongfully in connection with crown land surveys, and in other illegitimate ways; in fact his boodling was quite as disreputable as Pacaud's, though not on so large a scale. The Montreal Witness gives the following piece of Mr. Pelletier's record:

But the blackest thing of all laid to Mr. Pelletier's account is his alleged cruel and unworthy treatment of the widow and family of his personal friend the Hon. N. Larochelle, the man who resigned his seat in Dorchester in his favor, and had been elected for that county for the first time. On his dying bed in October, 1890, Mr. Larochelle, who was then a member of the Legislative Council, wrote a feeling letter to Mr. Mercier, explaining his pitiable condition and the comparative poverty in which he was about to leave his poor wife and five young children, and, while bidding him farewell forever, begging him as a supreme favor, in the interest, to have them paid his sessional indemnity for the session then called. After Mr. Larochelle's death this letter was handed to Mr. Mercier by Mr. Pelletier, and in keeping with precedent on the subject, the ex government ordered the payment of the deceased's full sessional indemnity of $800 to his widow. Now according to her story, in the month of December following, at his own request, she gave Mr. Pelletier a power of attorney to draw the money for her, as her husband's friend and lawyer, from the government; that he drew the full amount, and that all she ever got from him of it was $50 at one time and $205 at another; that, on the pretext of being in a hurry, he got her to sign an almost illegible receipt for the full $800, when she thought she was only signing for the money she had actually received; that he also cajoled her into signing a letter written by himself declaring herself perfectly satisfied with his administration of her husband's estate, of which he would never give her any account, although she had frequently written and asked for one, and further that he had told her that he had paid her $90 for her husband's funeral expenses, when she afterwards discovered that he had not done so, but that the money had been paid by one of her husband's debtors, who had also handed over a balance of $127 due the estate to Mr. Pelletier himself."

A man who could be guilty of so mean a theft as this is calculated to drag down any Government of which he is a member, and it is not surprising that a vigorous effort is being made to eject him from the Cabinet. It is worthy of note that the Royal Commission distinctly refused to investigate the charges against Pelletier, though urged to do so. If Mr. Pelletier remains in the Government the impression will be strengthened that the new set of Ministers is no better than the old one, and that nothing can be gained by exchanging one set of boodlers for another.

EDITORIAL NOTES.

Toronto's mortality returns for last month show that the deaths numbered 500, while in January of last year there were only 300 deaths. Grippe and its complications are credited with this alarming increase.

Premier Abbott has formally declined to attend a banquet which the Albany Club of Toronto has proposed to give in his honor on the grounds that his advanced age will not permit of his taking part in such festivities or speaking in public. He has asked the Macdonald Club of Ottawa not to urge its request for his appearance at a public meeting under its auspices, for the same reason.

During the fiscal year 1890-91, the receipts of the Canadian Customs Department from fines, forfeitures and seizures were $123,044, and the expense to the country of collecting these was $122,640. The excise seizures amounted to $2,601.54, and the payments on account of them to $2,908.69. The informers and seizing officers seem to make a good deal more out of these seizures than the country does.

The Port Hope Guide says: "It is reported on the very best authority that the two-rowed barley which is raised in this country and shipped to England, will not answer for the British brewers, and those who have tried it decline to buy a second lot. The difficulty seems to be that our summers are only about three months, while the barley crop in England has nearly twice as long to mature. Two-rowed barley will only bring feed prices in our market now." Thus does another Tory fiction go to the wall. Two-rowed barley for the British market was to be the Ontario farmer's means of escape from the McKinley impost, but it does not seem to work well.

A London dispatch says:—"Howard Vincent's friends are stumping the provinces in the interest of the United Empire Trade League. There is little sign of real success. At the meeting in Manchester this week the attendance was slender. It is notable that Vincent's chief supporter is James Lowther, a long-avowed protectionist. The London papers pay scant attention to the proceedings Vincent declared that everywhere in Canada he found a feeling in favor of preferential trade with the mother country." It was easy for Col. Vincent to find sentiment in Canada in favor of his scheme, but it is another thing to persuade the British people that they would do well to tax themselves for the encouragement of colonial trade.

An Ottawa dispatch to the Colonist says:

Mr. Aylsworth, manager for the Rathbun Company has accepted nomination in East Hastings in the Liberal interest, but in doing so he found it necessary to sever his connection with the Rathbun Company. He has been with the concern over 30 years. Prior to the inauguration and operation of the National Policy Mr. Rathbun was a Liberal, but since then he has associated himself with the Conservative party. With Mr. Rathbun opposed to him, Mr. Aylsworth's chances of election are not good.

Of course a man who has profited so much by high duties as Mr. Rathbun has could not be expected to allow an employee to run as an opponent of high duties. When Mr. Rathbun's interests and the country's interests conflict Mr. Rathbun naturally looks after his own. That is a way protectionists have.

A Toronto dispatch says that a number of the skilled workmen thrown out of work by the closing down of the rolling mills have gone to the States, and the rest will soon follow. There were about 40 of these men employed in the mills. In the meantime there are over 100 unskilled employees living in enforced idleness, who have not even the privilege of exporting themselves and their labor, as there is plenty of unskilled labor to be had everywhere. Similar intelligence comes from Hamilton, where the moulders are still holding out against the reduction in wages proposed by the bosses. Fifty of the men have already gone to the States and more are ready to depart. Tupper's heavy iron duties evidently fail of their purpose, which was to secure a mighty extension of the iron industry in Canada. The users of iron are burdened needlessly and the industry is still weak.

The Central Farmer's Institute of Ontario recently held its annual meeting in Toronto, whereat a resolution in favor of free trade was carried by 84 votes to 26. It is quite safe to say that this vote fairly indicates the feeling of Ontario farmers in general on the trade question. At the same meeting Mr. D. D. Wilson of Seaforth, the most extensive dealer in eggs of Canada, spoke on the egg trade with England. He said he had handled 1,500,000 dozens of eggs during the past year, having shipped more than any other two Canadian dealers, and his deliberate conclusion was that the attempt to open up trade with England was a failure. The testimony of Mr. Wilson, who speaks from experience, is worth more than the blatant talk of all the Dominion Ministers. It is quite evident that the McKinley duty on eggs is a serious blow at the Canadian egg trade.

The Sherbrooke, Que., Gazette, a strongly Conservative paper, remarks:

We should be untrue to the Eastern Townships were we to conceal our disappointment that the just rights of the Eastern Townships have been wholly ignored. We should be recreant to the principles of the Liberal Conservative party were we to abstain from showing our disgust that men, some of whom should justly be held responsible to a certain extent for the proved corruption at Ottawa, are still retained in power. We do not say that there is sufficient evidence to condemn them, but a Minister of the Crown should, like Cæsar's wife, be above suspicion. There is reasonable ground for belief that their negligence, to put it mildly, afforded opportunity for the commission of crimes. How can Mr. Abbott or Sir John Thompson expect the Liberal Conservative press to denounce Mercierism at Quebec while he condones rascality at Ottawa? He justly lays himself open to a charge of complicity. We are sorry to be obliged to speak thus plainly, but in the interest of truth, justice and morality it is necessary to be plain when the leaders prove false. When the members of the Conservative party next meet Mr. Abbott in caucus we hope and trust they will not be backward in telling him plainly that his course is distasteful to the people and the party and will be disastrous to the Dominion.

There was no paper read and therefore the evening was devoted to the discussion of general business. Another meeting will be held in a fortnight.

The School Board.

The regular monthly meeting of the Board of School Trustees will be held at the City Hall this evening at 8 o'clock. The architect's report on the High School alterations and on the stairway to the boys' school will be submitted, and the manner in which teachers have been recently appointed will come in for a share of the discussion.

The Arlington Fire.

Dr. G. L. Milne last evening received a telegram stating that the Arlington hotel, Vancouver, belonging to him had been damaged by fire. He therefore went over to Vancouver by this morning's boat. He was accompanied by Manager Dalby, of the B. C. Fire Insurance Company, who have an insurance of $2000 on the building.

Last Night's Alarm.

An alarm of fire from box 23 called the firemen to an unoccupied house on Fort street. No. 3 reel was on hand quickly and a fire was discovered in a barn in the rear of a house owned by Mr. Hardisty. One stream of water was all that was needed to put out the blaze which was caused by boys. The steam engine and truck went to the wrong box and were late at the fire. The damage will amount to $5.

Take a Turkish Bath.

The B. C. Medico-Electric Institute has decided to reduce the price of Turkish baths to $1. To enable all to avail themselves of a clean bath in comfortable apartments, hot and cold water baths in connection with a rejuvenating shower bath will be given for the moderate price of 50cts. Open day and night, including Sundays. Tickets for sale at the office, 76 Yates street. *

In a Frightful Condition.

Mr. E. D. McNaughton who last week returned from a trip to the West Coast, took occasion while at Carmanagh Point to visit Charley, the Indian who was shot by Officer Allan while trying to escape from jail. Mr. McNaughton says the man is in a miserable condition and if he is left as he is he will surely die. Pieces of bone are continually coming out of the wounded leg which is in a frightful state. The Indian told him that he had sent to Victoria for medicine and had received some sulphur ointment which was of no use to him.

B. C. Stock in London.

In the last Canadian Gazette "Bondholder" writes as follows:—"SIR,—British Columbia Three per cent. Inscribed Stock at 85½ and 86⅛, as compared with Ceylon Three per cent. at 92½ and 93¼, or even with Canada Three per cent. at 99 and 95, might appropriately have been included under the heading "Senseless Differences," in your issue of the 14th inst. Bearing in mind that the debt of the province is under £2 10s. per head of population, there can be little difference between the intrinsic value of the Three per cent. stock and those of Ceylon and Canada, which are respectively quoted more than 8 per cent. and 9 per cent. higher."

The very excellent picture of Hon. Justice Drake that appeared in the TIMES on Saturday, was from a photo by Hall & Lowe, the Government street artists.

Another Inebriate.

Shortly after one o'clock this afternoon officer Smith gathered from off Store street an almost helpless drunk who was spreading himself without regard to consequences.

Licensing Commissioner.

At Wednesday night's meeting of the council Alderman Lovell will nominate Alderman Hunter for the council's representative on the licensing board, Alderman Hunter served in that capacity last year.

Tenders Invited.

Tenders have been invited by the clerk of the municipal council for the erection of a board fence around the market and property on Fisguard street, and the erection of an office for the market superintendent.

Horses and Mules.

Consul Myers has received a letter from an Oregon farmer asking if there is any market in British Columbia for horses and mules. The writer states that he has a band of one hundred horses and mules, which he would like to dispose of in British Columbia if favorable prices can be obtained.

Will Improve the Track.

The Victoria Jockey Club will make a number of improvements on the track before their spring meeting, which is to be held in May next. They will probably erect a new grand stand, the need of which was greatly felt at their last meeting. The number of horses entered for the Queen's plate is very encouraging.

An Irate Expressman.

A scene occurred at the E. & N. Co.'s station about noon to-day, when an expressman who had had a slight altercation with a cabman, began throwing packing boxes at the latter, and trying to follow up his unwieldy missiles. Policeman Smith put a stop to the affair by taking the expressman off to the police station. The principal will be required to appear at the police court to answer for his conduct.

Imperial Theatre.

A large audience greeted the grand re-opening of this popular theatre last night. The performance was all that could be desired and was well appreciated by its patrons. The performance began with a laughable comic pantomime which was irresistably funny, and which put the hearers in good humor for the other specialties which followed. The performance on the whole was very creditable and a great success and one which no one could find fault with. The bill will be repeated to-night.

Will Start Agencies.

Messrs. W. D. Hayward and Thos. Norquay left last evening via the N.P.R. for St. Paul. The object of their trip is to establish agencies in eastern cities for the Kaslo-Kootenay Company, and also to circulate information regarding the mines of Kootenay and general information regarding British Columbia. The firm of Irving & Hayward, whom they represent, has received a great deal of correspondence lately asking about this Province and especially Kootenay, and they found that the steps they have taken will be the best means of giving what is asked for.

A Canadian's Opinion.

Mr. F. H. Doty, of the well known boiler and engine manufacturing firm, of Toronto, arrived last night. Mr. Doty visited Kootenay while en route to the coast, going in from Spokane Falls. He observed, not without regret, that Canadians are being beaten in their own country by the shrewd and enterprising Americans, who are obtaining possession of nearly all the most valuable mineral locations. The Canadians are speculating in town lots, while the longer-headed citizen of the Great Republic is taking possession of the mines. In the long run the mines will be the better investment, for they will continuously produce wealth that will enrich their owners as well as others, whereas the "unearned increment" from an increase in land values can only benefit a few lucky owners.

A Popular Teacher is Cased.

Last evening when Mr. E. J. O'Sullivan, the popular and highly successful principal of the Victoria Business College, had concluded his work and dismissed the students attending the college, he was, to his great surprise, invited to a consultation with them on important business. This proved to be the reading of a highly complimentary address and the presentation of a gold-headed ebony cane as a mark of their appreciation of the valuable assistance they had received from the principal during the past two months. The head of the cane bore the following inscription: "Presented to Mr. E. J. O'Sullivan by his students. Victoria, B. C., Feb. 8, 1892." Mr. O'Sullivan opened the college only two months ago, and his success has been so great that additional accommodation is urgently required.

The new schooner Victoria built at Clark's ways and launched last week, also belonging to the N.P.S. Co., is alongside Spratt's wharf taking on supplies. She is a neat little craft, and looks particularly trim and tidy, resplendent in a fresh coat of paint, new tackle and new sails carefully bent.

Mock Parliament

There was a fair attendance of members in the Sir William Wallace Hall last evening to continue the postponed debate on Imperial Federation. The speech of the evening was made by Mr. McMillan, who reviewed the policy of England towards Ireland and the Colonies, claiming that Canada was now quite capable of looking after her own affairs and should at once sever the political bonds that bound her to the Mother Country. The Leader of the Opposition made a "patriotic" reply, vigorously justifying England's policy and exhorting all to stand by the old flag. He thought that a resolution of such importance should come from some one on the ministerial benches and not from an irresponsible party and moved to that effect. After this the House adjourned.

At the meeting of the society several new members were introduced to the Minister of Militia, who presided in the absence of Mr. Speaker. Provision was also made for the accommodation of lady visitors who may show their interest in parliamentary matters by attending the meetings.

The Minister of Justice has given notice that he will ask leave to introduce a bill to provide for giving full jurisdiction in matters of divorce to the Supreme Courts in Canada not yet possessed of such jurisdiction.

A Big Batch of Law Breakers

Five drunks appeared at Police Magistrate Belyea's court this morning. Three of these offenders were fined the usual $5 and costs, but Peter, an unfortunate savage, who did not know enough of the law to avoid carrying the liquor in his person instead of on it, had to pay a penalty of $25, or in default two months of hard labor, for his indiscretion. The fifth man did not remember whether he had been drunk or not and was unable to plead. There being no witnesses in court to prove the charge the magistrate dismissed the accused, advising him not to appear on the same charge again, under a penalty of $10. An individual accused of using grossly insulting language was remanded until to-morrow. John Smith was charged with an infraction of the fire by-law. Sergeant Levin and Officer Hendry testified that they had seen burning soot coming from the chimney of the Steitz restaurant owned by the defendant. Mr. Smith objected that burning soot was not fire, but offered no other defence, because he had no time for such proceedings. The court imposed a fine of $5.

The News.

The Daily News, the new morning paper, made its appearance at noon today, the issue having been delayed through a "mishap to the press." The salutatory of the editor—whose personality is kept modestly in the background—states that the politics of the News will be Conservative, while on Provincial issues it promises that its course "will be such as to receive the endorsement of a discriminating public." It is not perhaps the province of a Liberal newspaper to say that there is no field in Victoria for another Conservative paper, but it would seem to us that on the broadest ground of a public demand for another *news*-paper, our new contemporary cannot offer a reasonable excuse for its birth. The field is a small one, and of late years especially, has been well filled. Nevertheless, we trust the expectations of the promoters will not be disappointed, and that all three papers will have a prosperous career. The initial number of the News is a creditable production, and no doubt the efforts put forth at the first will be maintained in subsequent issues.

Artificial Hatcher.

Messrs. McLennan & McFeeley have commenced removing to their new store in the Dalby-Wilson block at the corner of Johnson and Government streets, where they will have more room, and a better chance to show their stock of hardware, stove and tinware. Among the attractions in their window is a Prairie State incubator, which should have a batch of chickens hatched by Thursday.

A Grand Sacred Concert.

In about two weeks or as soon as the lights have been put in the new R.C. Cathedral, a grand sacred concert will be held in the new edifice. The concert will be interspersed with tableaus and Mother Goose melodies in costume by the children. The concert will be one of the best ever held in the city as there are numbered among the R. C. Cathedral some of the best local talent. No pains will be spared by those who have the arrangements in hand to make it a grand success and the worthy object for which it will be held will no doubt help them considerably.

Building Committee Report.

A special meeting of the council of the Board of Trade has been called for tomorrow morning at 11 o'clock when the building subscription committee will present their final report and other business will be dealt with. As soon as the report has been adopted by the council, a meeting of the shareholders will be called.

PROVINCIAL LEGISLATURE

A BILL TO AMEND THE LAND ACT INTRODUCED

By Hon. Mr. Vernon—Four Bills Considered in Committee and Agreed to—The House Adjourned to Wednesday to Give Time to Consider the Land Act.

The Premier in moving his resolution to consider the cancellation of Mr. McLeod's certificate, explained that the reason why the Government objected to Mr. Kitchen's resolution was because it would be absurd for the House to sit as a court to enquire into the examination of Latin papers, and not because of the composition of the committee.

Mr. Beaven thought the resolution was not in order, but the Speaker ruled that although the purport of the resolution was the same as that introduced by Mr. Kitchen, yet the wording had been sufficiently changed to constitute a new motion.

Mr. Semlin said he would like to know the scope of enquiry allowed by the resolution. According to his reading it would not preclude an examination of the Latin papers. He wished to know whether these papers might be examined.

Mr. Beaven said he could not understand why the Premier did not embody in his resolution the second clause of Mr. Kitchen's motion, calling for an enquiry into the methods of examination in the schools. The system of examination might be all right, but he certainly thought the officials of the department were at fault.

The Premier refused to make any further explanation as to what papers might be examined, or as to why the clause calling for an enquiry into the methods of the examinations should be left out. It had all been explained before, he claimed.

THE LAND ACT.

After the reading of petitions Hon. Mr. Vernon introduced the following bill to amend the Land Act.

Her Majesty, by and with the advice and consent of the Legislative Assembly of the Province of British Columbia, enacts as follows:—

1. Section 5 of the "Land Act" and section 2 of the "Land Act Amendment Act, 1890," are hereby repealed and the following is substituted therefor:—

"PRE-EMPTION OF SURVEYED AND UNSURVEYED LANDS.

"5. Except as hereinafter appears, any person being the head of a family, a widow, or single man over the age of eighteen years, and being a British subject, or any alien, upon his making a declaration of his intention to become a British subject before a commissioner, notary public, justice of the peace, or other officer appointed therefor, which declaration shall be in the Form No. 1 in the schedule to the "Land Act," and upon his filing the same with the commissioner, may record any tract of unoccupied and unreserved Crown lands (not being an Indian settlement) not exceeding one hundred and sixty acres in extent: Provided, that such right shall not be held to extend to any of the aborigines of this continent, except to such as shall have obtained permission in writing to so record by a special order of the Lieutenant-Governor in Council"

2. Section 9 of the "Land Act is hereby repealed and the following is substituted therefor:—

"9. Every piece of such unoccupied, unsurveyed, and unreserved land as aforesaid, sought to be pre-empted under the provisions of this Act, shall save as hereinafter provided, be of rectangular or square shape, and one hundred and sixty acres shall either measure forty chains by forty chains (equal to eight hundred and eighty yards by eight hundred and eighty yards) or twenty chains by eighty chains (equal to four hundred and forty yards by seventeen hundred and sixty yards). Eighty acres shall measure twenty chains by forty chains and forty acres shall measure twenty by twenty chains."

3. Section 21 of the "Land Act" is hereby amended by striking out the words "or his agent" on the eighth line and the words, "or their agents" on the ninth line.

4. The clauses substituted for section 29 of the "Land Act" by section 4 of the "Land Amendment Act, 1891" are hereby repealed.

5. Section 5 of the "Land Amendment Act, 1891" is hereby struck out and the following is substituted therefor:—

"5. Such of the lands of the Province the surveys whereof have been duly made and adopted by the Government and confirmed by notice in the British Columbia Gazette, may, whenever so ordered by the Lieutenant-Governer in Council, from time to time be put up at public sale (of which sale due and sufficient notice shall be given), upon such terms and conditions as may be considered advisable.

6. Section 54 of the "Land Act" is hereby repealed and the following is substituted therefore:—

"54. Leases of surveyed unpre-empted Crown timber lands which have been previously offered to public competition may be granted by the Chief Commissioner of Lands and Works for a term not to exceed twenty-one years, to any person, persons, or corporation duly authorized in that behalf, for the purpose of cutting spars, timber, or lumber, and actually engaged in those pursuits, who have tendered the highest cash bonus, subject to the payment of an annual rental of ten cents per acre, and of a royalty of fifty cents per thousand feet on the scaled measurement of the logs cut on the leased premises: Provided, also, that the lease shall contain provisions binding the lessee to erect in some part of the province, as may be approved of by the Chief Commissioner of Lands and Works, a lumber mill appurtenant to the limit and capable of cutting not less than 1000 feet of lumber per day of twelve hours for each and every four hundred acres of land included in such lease; and any such lease may be subject to any general stipulations which the Lieutenant-Governor in Council may see fit to impose: Provided, further, that any tender which may be made by any person who is not the owner of a properly equipped sawmill in some part of the province appurtenant to the limit desired, will not be considered unless accompanied by a certified cheque for one thousand dollars, or other security in that amount satisfactory to the Chief Commissioner of Lands and Works, as a guarantee for the erection of a suitable mill within two years."

7. Section 55 of the "Land Act" is hereby struck out and the following is substituted therefor:—

"55. It shall be lawful for the Chief Commissioner of Lands and Works to grant leases, for pastoral purposes, to any person, subject to such conditions as may be considered advisable, of lands which are in his opinion unsuitable for cultivation under ordinary circumstances, at an annual rental of five cents per acre, for a term of not exceeding twenty-one years. Any person desiring to acquire a pastoral lease shall give two months notice of his intended application for such lease by a notice inserted, at the expense of the applicant, in the British Columbia Gazette, and in any newspaper circulating in the district where such land lies; such notice shall state the name of the applicant, the locality, boundaries and area of the land applied for; such notice shall be dated and posted in a conspicuous place on the land sought to be acquired, and on the Government Office, if any, in the district. After the expiration of the two months and within ninety days from the date of the publication of his notice in the British Columbia Gazette, he shall file an application (upon an official form) in duplicate with the commissioner for the district, together with a declaration that the land desired is unsuitable for agricultural purposes, and with such application he shall deposit a sum to cover the first year's rental; within twelve months from the date he shall have the land required surveyed, at his own cost, by a duly authorized Provincial Land Surveyor approved of and acting under the instructions of the Chief Commissioner of Lands and Works; and such lands shall be surveyed on the rectangular or square system now adopted by the Government, and all lines shall be run due north and south and due east and west, except where from the nature of surveys made it would be impossible to conform to the above system; and wherever possible the said survey shall be connected with some known point in previous surveys, or with some other known point or boundary.

"The Chief Commissioner of Lands and Works after examination of the report of the survey, the field-notes thereof, with the statutory declaration of the surveyor, and all other documents and information in relation to the application, and of the character of the land applied for, which shall be procurable, if satisfied with the information, and that it is not contrary to the public interest that the application should be granted, shall issue a lease of the land embraced by such survey.

"(a.) Provided that if the applicant shall fail to have a survey of the land made within twelve months from the date of his application, or if he makes any false statement respecting the nature of the land desired to be leased, his application shall be refused, and any payments made by him shall be forfeited to the Crown:

"(b.) Provided, that in the event of two or more persons applying for a lease of the same lands, and the prior right of either or any of the applicants is not clearly established, the Chief Commissioner of Lands and Works may invite tenders from the applicants, or the public, and the person tendering the highest cash bonus therefor shall be entitled to the lease."

8. Sections 56 and 57 of the "Land Act' are hereby repealed.

9. Section 73 of the "Land Act" is amended by adding thereto after the word "ties" in the fourth line, the words "shingle or other bolts of cedar," and by striking out all the words after the word "determined" in the 10th line, and by substituting therefor the words "for the purposes of this Act shall be as follows:—For logs of 24 inches in diameter and under, the superficial contents thereof shall be those in the tables of log measurement known as 'Doyle's Rule;' for logs of 25 inches in diameter and upwards the superficial contents as set forth in 'Scribner's' tables shall be taken as the correct measurement thereof."

10. Wherever the words "Chief Commissioner of Lands and Works or Surveyor-General" occur in the "Land Act" the words "or Surveyor-General" shall be struck out.

11. The reservation placed upon Crown land in West Kootenay District, notice of which was published in the British Columbia Gazette, and dated 12th December, 1889, is hereby rescinded.

12. It shall be lawful for the Lieutenant-Governor-in-Council from time to time to make rules and regulations not inconsistent with statute, for the carrying into effect and operation the true intent and meaning of the "Land Act" and amendments thereto, and such rules and regulations shall from time to time be published in the British Columbia Gazette and signed by the Chief Commissioner of Lands and Works, and shall have the effect and force of law.

13 This Act may be cited as the "Land Act Amendment Act, 1892."

THE CONSTITUTION ACT.

Hon. Mr. Davie's bill to amend the "Constitution Act," was read a second time and the House went into committee thereon, with Mr. Sword in the chair.

Mr. Brown offered an amendment: (1.) To strike out the first two lines of the preamble and insert in lieu thereof: "Whereas it is desirable to amend the 'Companies Act, 1890.'" (2.) To insert the following as section 1: "1. Section 11 of the 'Companies Act' 1890,' is hereby amended by striking out the words 'and residents of the Province,' in the third line, and by inserting after the word 'but,' on the sixth line, the words 'a majority of the said trustees shall be residents of this Province, and.'"

At the request of Hon. Mr. Davie he held the amendment over until the bill is reported on.

On motion of Mr. Davie the bill was amended by adding the following:

"23A. Nothing in this Act contained shall apply or extend to render ineligible or disqualify as a member of the Legislative Assembly—

"(a.) Any shareholder or director in, or trustee of, any incorporated company having a contract or agreement with the Government of the Province; or

"(b.) Any person on whom the completion of any contract or agreement, expressed or implied, devolves by descent, or limitation, or by marriage, or as devisee, legatee, executor, or administrator, until twelve months have elapsed after the same has so devolved upon him: or

"(c.) Any contractor for the loan of money, or of securities for the payment of money to the Government of British Columbia, under the authority of the Legislature, after public competition, or respecting the purchase or payment of the public stock of debentures of British Columbia, on terms common to all persons."

At the suggestion of Mr. Beaven the bill was also amended so that no director of a company a member of the legislature should be allowed to vote on a contract with the Government, on a penalty of disqualification.

The committee rose and reported the bill accepted as amended.

MAGISTRATES' BILL.

Hon. Mr. Davie's bill to amend "The Magistrates Act," was read a second time with Mr. Smith in the chair.

At the suggestion of Hon. Mr. Beaven and on motion of Hon. Mr. Davie, section 5 of the bill was amended so that the Lieutenant-Governor should have the power to revoke or cancel the commissions of justices of the peace by an Order-in-Council.

Clause 6 was also amended so that the appointment of one justice of the peace might be revoked without affecting other justices of the peace who were appointed by the same commission.

Section 10 was amended that county should mean county as applied in "Sheriff's Act," and a clause was added making it necessary that persons appointed as justices of the peace or magistrates should take the oath of office according to section 9 of the "Magistrates Act" within 30 days, or the appointment should cease.

Mr. Semlin thought the bill might be amended that in case where the county was sparsely settled the nearest magistrate might act.

The Attorney-Geneal said the line must be drawn somewhere.

Mr. Beaven thought that where counties were larger than electoral districts, the appointments should be made for the counties, and cited the case of Victoria county, which included several electoral districts.

Mr. Davie thought the bill had better stand as it was in this respect, as if a man committed an offence two miles out of the city of Victoria, were a magistrate appointed for the electoral district of Victoria, the offender would not come under his jurisdiction. The same thing applied to Vancouver and Nanaimo.

Mr. Sword thought it was doubtful if the licensing system would be improved by the new law.

The committee rose and reported the bill as amended.

THE COAT OF ARMS.

The Attorney-General's bill respecting the authorized use of the Provincial Coat of Arms, was read a second time and on motion the House went into committee thereon, Mr. Keith in the chair.

Mr. Brown stated that were the bill passed as proposed, injury might be done to some canning company which he understood used a large quantity of labels printed with the provincial coat of arms as a trade mark. He also pointed out that the members might get into trouble, as the / used paper headed with the provincial coat of arms.

On motion of Mr Davie the bill was amended so that the members of the Legislature might use the Provincial coat of arms.

Mr. Hunter asked if a member of the House could brand his cattle with the coat of arms.

Mr. Booth pointed out that the operation of the law was to prevent deceit practiced by some persons in trying to give their documents an official appearance by capping them with the coat of arms.

Mr. Brown proposed that the act should not come into operation for some time that they might not do injury to any who might have labels printed as he suggested.

Hon. Mr. Davie said he was informed that there was no case as instanced by Mr. Brown, and that even if there were the Lieut.-Governor had the power to remit the penalty under the Revenue Act.

The committee rose and reported the bill complete as amended.

Hon. Mr. Davie presented a return to an order of the House for a copy of the Act of Parliament of Great Britain 40 and 41st years, chap. 59.

Hon Mr. Robson moved that when the House rises it shall stand adjourned until Wednesday at 2 p.m.—Carried.

The House adjourned at 3:40 p.m.

QUESTIONS.

On Wednesday next—Mr. Kellie will ask the Commissioner of Lands and Works: (1.) Were G. M. Sproat and A. S. Farewell in the employ of the Provincial Government at any time in the years 1883, 1884 or 1885, in Kootenay district? (2) If so, in what capacity were they employed? (4.) And what salary did they receive?

NOTICES OF MOTION.

Mr. Kellie—On Wednesday next, to move for a return, showing the area of all or any portion or portions of land reserved by the Government in favor of the Kootenay & Columbia Railway Company, together with the maps or plans showing the situation of such reserves.

Mr. Kellie—To introduce a bill relating to the incorporation of railway, tramway, telephone and telegraph companies.

Mr. Kellie—For a return of copies of all correspondence, Orders-in-Council, or other papers that have passed between any department of the Government and any department of the Dominion Government, or other person or persons having any reference to the townsite of Revelstoke.

Mr. Kellie—For a return of copies of all correspondence, Orders-in-Council, or other papers relative to the granting of 1100 acres in Revelstoke to A. W. Farwell.

Mr. Kellie—For a return of copies of all correspondence, Orders-in-Council, or other papers that have passed between any department of this Government and Mr. James McCauley, relative to an application for a homestead on the Columbia River, at a point known as the townsite of Farwell.

Hon. Mr. Davie—To introduce an act to regulate mining partnerships.

Hon. Mr. Davie—To introduce a bill with regard to conditional sales of goods and chattels.

Hon. Mr. Robson—To introduce an act to amend the Public School Act, 1891.

KING SOLOMON'S MINE.

Money Has Just Been Taken From Mount Ophir of Bible Renown.

On the identical spot where King Solomon procured "gold dust, peacocks and monkeys," a syndicate with $5,000,000 capital stock issued and a 10-stamp mill erected, has just pounded out $55,000, says a contemporary Mount Ophir of scriptural renown is close by. The old rocks, which were too low grade for King Solomon's reduction processes, are being ground up and they average half an ounce to the ton. This gold field of Solomon's, which has been idle all these centuries till now, is on the Malay peninsula. The people who have gone in to develop it have had to cut seven miles of road through the jungle and clear sixty miles of river. They are just beginning to realize on their investment. The company with the big capital has a concession on twenty square miles of this gold field. The formation is black slate. A shaft sunk 100 feet on the lode has uncovered enough ore to keep the mill going a year. The ore will yield two ounces to the ton. In one place on the concession there is a hill 250 feet high and half a mile long. The company has tunneled into this hill about half way from the bottom, and found ore ranging from seven pennyweights to seven ounces of gold. The reef varies in width from two to nine feet. Even the loose rocks scattered about the hillside yield half an ounce of gold to the ton. The superintendent sent to the American consul recently: "I did not think there was anything of this kind so extensive in the world. Wherever you try you find gold." Raub is the modern name of the ancient El Dorado.

THE GUILELESS CELESTIAL.

Working Uncle Sam for Free Passages to His Native Land.

Deputy United States Marshall E. W. Mudgett, of Seattle, who has been especially active in apprehending contraband Chinamen and in seizing smuggled goods of all descriptions, said to the Post-Intelligencer that the Chinese exclusion law is subject to many abuses and that some of the Chinamen who are deported to China after hearing before United States commissioners are really entitled to remain on American soil; but from choice refuse to give any testimony in their own behalf and allow the government to pay their fare to their native land. Said he:

Many of the Chinamen who come over from Victoria and are caught by American officers are not particular whether they are deported or not. With most of them the only objection they have to being placed under arrest is the long confinement that they generally undergo before the government finds it convenient to send them back to China. I am satisfied that some of those who are deported after having been given trials are entitled to remain on American soil. Many of the Chinamen who have lived in America for years become possessed of a desire to visit their native land. They become familiar with the coast and the boundary and believe that, when they want to return, they will find it an easy matter to do so. They argued that the number of customs and other officers whom they must evade are but a handful compared to the enormous territory they are obliged to cover, and that it will be an easy matter to pick their way across the boundary. Even if they are caught they can prove that they have long lived here, and there is no one to swear that they have been away. Having made up their minds, they act suspiciously and are arrested. They refuse to testify in their own behalf, and the commissioner has nothing else to do but deport them, and the government pays their fare.

I have a case in mind which aptly illustrates this abuse of the law. Last fall complaint was made to the customs officers in this city that a large convoy of smuggled Chinamen had landed on Whidby Island and were crowding the white farmers out. A number of officers went to the island. Among the party were Inspector Munn and United States District Attorney Patrick Henry Winston. Ten Chinamen were arrested and brought to Seattle for trial. In due time they were given a hearing, and each of them proved to the satisfaction of the court that they were entitled to a residence in the United States, and they were discharged from custody.

Last December I was in Tacoma when a big batch of Chinamen arrived from the Government prison on McNeil's Island. They were on their way to San Francisco in charge of officers, from which place they were to be deported to China. I went down to where they were, and thought that I recognized one of them. He in turn caught my eye and appeared very much alarmed. Putting his finger to his mouth, he said:

"You no talkie! I likie go China allie same smuggled Chinaman. I save $65. Maybe I come back by and by!"

He was one of the ten who were caught on Whidby Island and who were discharged after proving their right to remain in the country. He wanted to go home on a visit and allowed himself to be arrested and deported in order to save the expense of the passage. There was nothing that I could do under the circumstances, for he had been ordered deported.

Of course there is no telling how many Chinamen are sent back in this manner, but it is safe to say that it costs the government thousands of dollars a year. There is no way that I can see to remedy this evil, and I suppose that it will continue and the government will be imposed upon as long as it is found necessary to pass laws regulating the immigration of the Mongolians.

Padlewski Was Murdered.

ST. LOUIS, Feb. 7.—The Republic's special from San Antonio says: The death of Padlewski, the nihilist, grows daily a mystery, and it is now almost certain that instead of being a suicide he was a victim of the Czar's vengeance. It was supposed that he committed suicide, but it is now known that the wound of Padlewski had been inflicted by a bullet of larger calibre than his pistol, besides this, secret papers which he was known to carry were missing when the body was found, as were subsequently official papers concerning his death, which were stolen from the district clerk's office. These facts, together with the knowledge that the detectives were on the trail of Padlewski, lead to the conclusion that Padlewski was murdered by detectives for a reward offered by the Russian government for his apprehension dead or alive. Attorney Wilson had the remains exhumed. He is a brother-in-law of the Russian consul at Galveston. It is presumed that an investigation will be made at the instance of the Czar's government.

Big Deal in Coal Stocks.

NEW YORK, Feb. 6.—The heavy trading and sharp advance in the coal stocks to-day was attended with much excitement. The advance at the close ranged from 1½ to 5½ per cent., the latter in the New Jersey Central. The air was full of rumors as to the movement. It was generally understood that a big deal in regard to the coal stocks was pending and it was stated that a syndicate had been formed to acquire control of the Delaware, Lackawana & Western, Delaware & Hudson, Reading & Jersey Central roads and other coal-producing companies, under a board of control which would establish joint agencies for the sale of the output, thus abolishing the present system of separate sale agents and preventing the competition for business that now prevails. Later in the day President McLeod, of the Reading Company, and officials of the Jersey Central and Lehigh roads held a long conference, but refused to make public any of the conclusions.

Pleased With Blaine's Withdrawal.

LONDON, Feb. 8.—The Globe to-day, in commenting on Blaine's letter, in which he declares he is not a candidate for the presidential nomination, attributes his withdrawal to the knowledge that he would not be successful, and his course in the Chilean affair destroyed his whole foreign policy, as far as the American continent is concerned. It adds: "To pretend that there is any regret felt in England because of Blaine's failure would be absurd. He is the enemy of our friends and the friend of our enemies. He never disguised his wish to annoy England, and he had recourse more than once to the most pretty and undignified means to effect this object."

Five Persons Burned to Death.

BERLIN, Feb. 7.—A mother, mother-in-law and three boys, all belonging to one family, perished in a tenement-house fire at Harsinghousen. The fire was in a house occupied by four families. The mother had a chance to save herself without the children, but threw herself back into the flames when she saw them burning. The mother-in-law tried to carry one of the children out in her arms, but was suffocated by the smoke and perished with the rest of the family.

Sturgeon-Fishing Pays.

PORTLAND, Or., Feb. 6.—An important industry has developed during the past month. Heretofore the sturgeon caught in the Columbia River have been thrown away, but are now packed in ice and shipped. The catch during the last two weeks has been 300,000 pounds. The fishermen make more money with the sturgeon than catching salmon.

Expelled from Warsaw.

WARSAW, Feb. 7.—Twenty-nine Germans and 23 Austrians have been expelled from Warsaw as undesirable foreigners. The exact nature of the objection to their presence is not known. There is considerable mystery about the affair and it is believed the incident will give rise to complications with Germany and Austria.

Bloody Argentine Elections.

BUENOS AYRES, Feb. 7.—The Provincial elections held to-day resulted in favor of the conciliation party desiring an agreement between Mitre and Roca. In some towns the elections were marked by street fights. Several persons were killed and a number were wounded.

Princess Sophia has La Grippe.

LONDON, Feb. 5.—Princess Sophia, sister of the German Emperor and wife of the Crown Prince of Greece, is sick with influenza.

What is more annoying than going about constantly hawking and spitting? This is the result of catarrh, and Nasal Balm will cure any case when faithfully used.

Consumption.

Messrs. Langley & Co., Victoria:

DEAR SIRS,—My little girl has been troubled with a severe cold, coughed all night and to all appearances was in the first stages of consumption. After trying several remedies without any benefit, I was recommended your Balsam of Aniseed, which has completely cured her. H. T. FORDE.

Makes the Weak Strong

The marked benefit which people in run down or weakened state of health derive from Hood's Sarsaparilla, conclusively proves the claim that this medicine "makes the weak strong." It does not act like a stimulant, imparting fictitious strength from which there must follow a reaction of greater weakness than before, but in the most natural way Hood's Sarsaparilla overcomes

That Tired Feeling

creates an appetite, purifies the blood, and, in short, gives great bodily, nerve, mental and digestive strength.

"I derived very much benefit from Hood's Sarsaparilla, which I took for general debility. It built me right up, and gave me an excellent appetite." ED. JENKINS, Mt. Savage, Md.

Fagged Out

"Last spring I was completely fagged out. My strength left me and I felt sick and miserable all the time, so that I could hardly attend to my business. I took one bottle of Hood's Sarsaparilla, and it cured me. There is nothing like it." R. C. BEGOLE, Editor Enterprise, Belleville, Mich.

Worn Out

"Hood's Sarsaparilla restored me to good health. Indeed, I might say truthfully it saved my life. To one feeling tired and worn out I would earnestly recommend a trial of Hood's Sarsaparilla." MRS. PHEBE MOSHER, 90 Brooks Street, East Boston, Mass.

COAL

The New Vancouver Coal Mining & Land Co., L'd.

(FORMERLY THE VANCOUVER COAL CO.),

ARE THE LARGEST COAL PRODUCERS ON THE PACIFIC COAST.

THE NANAIMO COAL (Used principally for Gas and Domestic Purposes).

THE SOUTH FIELD COAL (Steam Fuel).

THE NEW WELLINGTON COAL (House and Steam Coal) are mined by this Company only.

THE "NANAIMO" COAL gives a large percentage of Gas, high Illuminating Power unequalled by any other bituminous Gas Coal the world, and a superior quality of Coke.

THE "SOUTH FIELD" COAL is now used by all the Leading Steamship Lines o the Pacific.

THE "NEW WELLINGTON" COAL, which was introduced early in the present year, has already become a favorite fuel domestic purposes. It is a clean, hard coal, makes a bright and cheerful fire, and its lasting qualities make it the most economical fuel in the market.

The several Mines of the Company are connected with their Wharves at Nanaimo and Departure Bay where ships of the largest tonnage can be loaded at all states of the tide. Special dispatch is given to Mail and Ocean steamers.

NANAIMO NEWS.

The Salvation Army Commissioner---Proposed Brewery Consolidation.

NANAIMO, Feb. 9.—Commissioner Rees of the Salvation Army arrived here yesterday, and during the afternoon he was called upon to dedicate the ground on which the new barracks are to be built. The commissioner took the opportunity to inform his hearers that this was the first piece of ground that had ever been dedicated by the Salvation Army in British Columbia. The service of song was remarkably sweet, and those who listened to it evinced the pleasure they felt. He had been requested to unfurl the flag at the top of the new flag staff, but he would leave that honor to be executed by Staff-Captain Banks, and while the band played "Litt up the Banner on High" the captain pulled the flag halyard and the flag floated proudly to the breeze.

CONSOLIDATING THE BREWERIES.

Steps are being taken by the Union and Nanaimo Brewery Companies to consolidate the two breweries, as the shareholders are of the opinion that by so doing they will be enabled to control the whole of the business in Nanaimo. They will also be in a better position to brew sufficient for exportation, especially lager beer, which will shortly be undertaken. A meeting of shareholders of the two companies will be held at an early date and definite arrangements will then be arrived at.

FOOTBALL.

The Rugby football club of Nanaimo has been re-organized and has now a formidable team to put against all comers. Arrangements are being entered into for a match with the Victoria boys at an early date. It is most probable that the first match will take place in this city, at least that appears to be the wish of the majority.

ORDER OF BUCKS.

There are a number who believe the Order of Bucks is more than mythical, but such is not the fact. There are a few individuals who are constantly planning some practical joke or other on a companion, much to the amusement of almost everyone in the city. They may, however, be induced to form an order under that title, but a few more earnest men would have to govern it.

Doings in the Senate.

WASHINGTON, Feb. 9.—The senate committee on finance took the floor soon after the reading of the Journals and through Senator Morrill, the chairman, reported adversely a number of Senate bills as follows: Teller's bill for the free coinage of gold and silver bullion; Peffer's bill to increase the circulating medium by issuing treasury notes based on coin and bullion; the bill introduced by the late Senator Plumb to provide for the retirement of National bank notes and the free coinage of silver. Mr Merrill moved that all these bills thus adversely reported be indefinitely postponed. Mitchell of Oregon asked if any objections were being placed on the calendar with the adverse reports noted. Cockrell of Missouri seconded this request. Mr. Sherman remarked that the bill introduced by Mr. Teller was identical in all essential particulars with one of the other bills adversely reported, and he suggested that it was not necessary that both should go on the calendar. It was ordered that all three bills be placed on the calendar. Mr. Merrill further reported adversely Mr. Hiscock's bill to re-enact the act to secure a national currency and pledging United States bonds, and Mr. Kyle's bill making certain issues of money legal tender for payment of all debts. These bills have been indefinitely postponed without objection. Sherman introduced a bill which he said had been carefully prepared by the Treasury department to prohibit the coming of Chinese persons into the United States. The bill was accompanied by correspondence which he asked to be printed and the whole subject referred to committee on foreign relations, and it was so ordered. The Senate committee on finance this morning decided by a vote of seven to four to report adversely on Mr. Stewart's bill for the free coinage of silver.

To Cross in a Small Boat.

NEW YORK, Feb 7.—Captain James Monahan, who for over 30 years has been a resident of Canarsie, and for 20 years of that time has followed the sea for a living, will start early to-morrow morning on a perilous journey. Sometime ago Captain Monahan declared to some friends that he intended to cross the ocean, and when questioned as to how he proposed to make the journey, surprised them by answering: "In a boat built by myself. It is too expensive to pay for the trip." The boat is 16 feet long, two feet wide, and is so rigged as to make its management an easy task. A small cabin is covered with canvass, which is intended to protect the provisions from the sea. There is room enough to carry food sufficient for 100 days, but the captain expects to make the journey in 60 days. The wood used in the construction of the boat is entirely of cedar. The captain will meet his friends at 8 o'clock to-morrow morning at the Myrtle club house. He will then go to Canarsie, board his boat and start on his perilous journey.

Belmont and the Cranks.

NEW YORK, Feb 7.—August Belmont is the last acquisition to the list of New York millionaires pestered by cranks. Richard Nixon, formerly employed at the Belmont mansion on Fifth avenue as butler, went to the house a few nights ago, very drunk, and demanded the wages he said was due him. He threatened to kill Mr. Belmont, and for a time created great excitement among the inmates of the house. Mr. Belmont sent for the police, who took Nixon to the station. Mr. Belmont declined to press a charge against Nixon and he was discharged. Since then he has hung around the Belmont house, much to the annoyance of the family, who fear he will do harm. Police protection was claimed yesterday and an officer was detailed to watch the mansion and arrest Nixon if he should appear.

The Y. M. C. A. in Tacoma.

TACOMA, Feb. 7.—The eighth anniversary of the formation of the Y.M.C.A. was observed here to-day by special morning and evening services at several of the leading churches. At 9 a.m. Travelling Secretary for the Pacific Coast James O. Dummett, conducted consecration services at the Y.M.C.A. rooms, and at 3 p.m. Henry J. McCoy, secretary of the San Francisco association, conducted a largely attended meeting for men only at the same place. In the evening special services in commemoration of the anniversary were conducted at the First Methodist, First Congregational, First Presbyterian and First Baptist churches. The reports of the local association and the work of the organization was reviewed. The proposed new Y.M.C.A. building for this city is now assured, and the funds now collected will ensure the beginning of work on the foundation shortly.

Matches Among the Cotton.

NEW YORK, Feb. 9.—While men were transferring a cargo of 650 bales of cotton from the Savannah line lighter Louisiana to the steamship Lepanto yesterday a number of matches were found between the bales. The cotton was consigned to Antwerp and came from Savannah a few days ago. An investigation showed that many matches were distributed among the cotton bales. Sanderson & Son, the agents of the steamer Lepanto, stopped the loading of the cotton and sent word of the discovery to the maritime exchange, saying that they believed the matter would bear a thorough investigation. At the office of the Savannah line it was thought not to be a serious matter. A thorough investigation of the matter, however, is now in progress.

A Conductor Shot.

SACRAMENTO, Cal., Feb. 7.—A special to the Record-Union from Maxwell, Colusa county, says, Conductor N. A. Irwin, of freight train No. 21, which left this city this morning was shot and fatally wounded at 2 o'clock p. m. at Maxwell, by a man named Phelps, a drayman who had lived at Maxwell a number of years. The cause of the shooting is not known yet, but the men are known to be enemies. The train was just pulling out of the station and Irwin was standing on the rear platform of the caboose when shot. The bullet entered the abdomen and lodged in the back under the skin. The doctors say Irwin cannot live.

The Doughty Gallagher.

SAN FRANCISCO, Feb. 9.—Gallagher, who defeated Mahan last night, has already announced that he will fight McCann, who defeated him recently in two rounds in the Olympic Club, that being Gallagher's last amateur fight. As Mahan fought Danny Needham 16 rounds in Seattle and another long battle in San Francisco, Gallagher's victory makes him a champion in the 148 pound class.

THE POET-LAUREATE'S TRIBUTE.

The bridal garland falls upon the bier,
The shadow of a crown that o'er him hung
Has vanish'd in the shadow cast by Death;
So princely, tender, truthful, reverent, pure.
Mourn! That a world-wide Empire mourns with you,
That all the thrones are clouded by your loss,
Were slender solace. Yet be comforted:
For if this earth be ruled by Perfect Love,
Then, after his brief range of blameless days,
The toll of funeral in an Angel ear
Sounds happier than the merriest marriage-bell.
The face of Death is toward the Sun of Life,
His shadow darkens earth; his truer name
Is "Onward," no discordance in the roll,
And march of that Eternal Harmony
Whereto the world beats time, tho' faintly heard—
Until the great Hereafter mourn in hope.

TENNYSON.

The Complete Company.

The members of the Victoria Stock Company which opens an engagement at the Victoria Theatre on Thursday evening under the management of Mr. Rice are all in Victoria, a number of them having arrived from the Sound this morning. The first rehearsal of "Queena," the opening piece, was held to-day, and the manager is very well satisfied with his company, each member of which is well known on the stage. The following are the members of the company: Danel Vinton, leading man; Esther Lyons, leading lady; Geo. Barry, heavy man; Belle Inman, soubrette; Kitty Berry, juvenile; Sam Morris, comedian; Jas. Morton and F. Summerfield, character men; Annie Inman, character lady; and Baby Inman, child actor. Mr. Vinton was especially engaged to produce his star pieces, among which are "Monte Christo," "Francesca de Rimeny," "Richard III", "Forgiven" and "The Celebrated Case." The sale for reserved seats has been very large.

Father Bayma Dead.

SAN JOSE, Cal., Feb. 7.—Rev. Father Bayma, S.J., died at Santa Clara college this evening at 7 o'clock. He was a native of Turin, aged 76 years, and a man of great learning and literary ability, having been connected with the leading Jesuit educational institutions of the world.

KASLO CITY

The Centre of the Great Kootenay Mining District in B.C.

This young and thriving City is situated on Kootenay Lake at the mouth of Kaslo River, within close proximity to the famous Kaslo and Slocan mines.

The discoveries during the present year of numerous mines of remarkably rich ore and great width on Kaslo river and east of Slocan Lake are well known to the public. They have attracted the attention of capitalists and miners all over the continent, and there is no question that these mines, which are tributary to KASLO CITY, will receive more attention than those of any other section of Kootenay.

A spacious hotel has been built for the accommodation of travelers. Stores and other buildings have also been erected. The townsite is being cleared and streets graded so as to forward the large amount of building that will be in progress as soon as material is secured for construction. A trail has been built to the mines, which will be replaced by a wagon road as soon as the work can be prosecuted. The grade to the mines is an easy one. An application for a charter to build a railway line into the mines from Kaslo will be made at the coming session of the Legislature. Everything is being done that circumstances will permit to give easy access to the mines and furnish supplies for the miners. KASLO CITY will have a large population this summer. It will become the supply depot for the richest mining section yet discovered in British Columbia.

Unlike many mountain towns, it is most favorably situated on a gentle slope from the waters of a sheltered bay on Kootenay Lake, and is supplied for domestic and manufacturing purposes, by a large stream of pure cold water.

If you wish to participate in the profits that enchanced values will bring, don't fail to invest in Kaslo City. Lots are on sale at the offices of all the Leading Real Estate Brokers in the Province.
